1. Watermelon is one of summer's best summer treats. Did you know that watermelons are not a fruit, but a vegetable instead? They belong to the cucumber family of vegetables. National Watermelon Day is August 3rd. 
2. The first women's bathing suit was created in the 1800's. It was long sleeved and came with a pair of bloomers. 
3. Popsicles were invented by an 11-year-old boy in San Francisco in 1905. He left a glass of soda sitting outside and by the next morning the soda had frozen. He began selling them at an amusement park in New Jersey. 
4. Mosquitoes, summer's pest, have been around for more than 30 million years. 
5. The Eiffel Tower in France can grow up to 6 inches in the Summer! How? The Eiffel Tower is made out of metal iron. The heat from the hot summer days caused the iron to expand making the tower stretch up to 6 inches.
