NOTICE:

❄️ ❄️ THE SNOW IS HERE!! ❄️ ❄️

Please remember the following as we head into the winter months ... 

~ Park vehicles in driveways and **NOT** on the streets during winter months to ensure the grader can get through for snow removal. If you need to park on the streets, please have your vehicle moved after a big snow fall so it does not get blocked in by the snow plow.

~ Remember to bring in your garbage/recycle bins off the streets once they have been emptied to allow for the proper snow removal

~ When removing snow from your property, please be considerate of your neighbors and do not blow into their yards. Also do not push snow onto the streets from your driveways/walkways.

~ The driveway wing, when lowered should reduce the amount of snow left on driveway approaches but it will not eliminate a snow ridge. Unless this ridge is quite significant (more than 12 inches) staff will not return to remove it - this also applies to the ridges left in the back alley. Anything less than 12 inches is to be removed by the homeowner.
